

1 1-20000804-15165106-15193285 (2:41)

2 [dialing]

3 BRIAN: El Paso, this is Brian.

4 STEVE: Hey, Brian, this is Steve.

5 BRIAN: Hey.

6 STEVE: Hey – ah, who's on the desk tomorrow for El Paso?

7 BRIAN: Tomorrow for El Paso is either me or Holden. We're going to flip a coin in the
8 morning.

9 STEVE: OK. Loser gets El Paso [inaudible]

10 BRIAN: Yeah, another winner, man!

11 STEVE: Hey, ah, I sent the dispatch out already.

12 BRIAN: OK.

13 STEVE: For tomorrow.

14 BRIAN: OK.

15 STEVE: And so either you or Holden, when you guys get a hold of it, um, I just wanted y –
16 to make you aware that we're probably going to have plenty of generation.

17 BRIAN: OK.

18 STEVE: We're not even showing that we need to run Copper.

19 BRIAN: Oh.

20 STEVE: So if you guys on the desk you want to do some Fat Boys or – or whatever, man,
21 um, you know, take advantage of it.

22 BRIAN: Gotcha.

23 STEVE: Work it.

24 BRIAN: Gotcha.

25 STEVE: 'Cause you guys – you're going to be there during the day, right?

26 BRIAN: Yes.

27 STEVE: Yeah, I don't think there's that much opportunity off peak, in fact off peak it looks
28 like we're just a wee bit on the lean side, because they're going to be doing some work on

1 Newman 2.
2 BRIAN: OK.
3 STEVE: So, ah, take a look at that dispatch sheet, and if you got any questions on it, um,
4 give me a call.
5 BRIAN: OK.
6 STEVE: You can call me at that 5808 or my cell number.
7 BRIAN: OK.
8 STEVE: Um, but you know, hey, you know, Copper is ah, probably costing us, let me see
9 here –
10 BRIAN: 60 or 65, usually, right?
11 STEVE: Yeah, say 60, 65 bucks, maybe 70 tops.
12 BRIAN: Yeah.
13 STEVE: So, if um, you know, you guys want to do some Fat Boys and start up copper to
14 do that - ?
15 BRIAN: Got it.
16 STEVE: Or just wherever bi-lat market, just go ahead and work it.
17 BRIAN: OK.
18 STEVE: Um, you know, don't – you know if you only make it a couple three four bucks a
19 megawatt hour, I – I mean, it's not really worth it , but –
20 BRIAN: Right.
21 STEVE: You know, for, I don't know what last Saturday was doing, but –
22 BRIAN: I don't either, actually, I've been ah – been out of town for a few days, but we'll
23 definitely, ah, keep *[inaudible]* in mind and we'll fire it up if we see an opportunity to.
24 STEVE: Yeah. And it even *[inaudible]* 0:01:51.2 even if you don't fire Copper, it still looks
25 like we got probably about 30 or 40 megawatts to sell all day.
26 BRIAN: OK. Cool.
27 STEVE: So –
28 BRIAN: All right.

1 STEVE: All right man?

2 BRIAN: Thanks for the heads up.

3 STEVE: OK, well, you have a good one.

4 BRIAN: Yeah, you too, Steve. Talk to you.

5 STEVE: All right, bye.

6 =====

7 [*dialing/ringing*]

8 GARY: Dispatch, Gary.

9 BRIAN: Gary, Brian at Enron.

10 GARY: Hi there.

11 BRIAN: We sold 35 to Water Power and it is coming off FAST. 149 dollars.

12 GARY: Thirty-five. Water Power – one four nine?

13 BRIAN: Yes.

14 GARY: OK.

15 BRIAN: Thank you.

16 GARY: You bet.
