

1 **1-20000811-16361253-16451115 (8:58)**

2 JESSE: Enron, this is Jesse.

3 JOHN: Hey Jesse, this is John.

4 JESSE: Hey, what's goin' on?

5 JOHN: Oh, just, ah, hangin' out. So how's it goin'?

6 JESSE: [*inaudible*] we're getting' whacked and exercised left and right.

7 JOHN: Oh, really?

8 JESSE: Yeah.

9 JOHN: Whacked? What do you mean whacked? Can I –

10 JESSE: That was earlier. We pulled that stupid Death Star. That about killed us.

11 JOHN: Yeah, on days that, ah, we think it's going to go into stage, we oughta just do a firm

12 export or – you know, if the money's going to be there. Or not do it at all.

13 JESSE: Or not do it.

14 JOHN: Yeah.

15 JESSE: I mean –

16 JOHN: I'd do a wheel. That's what we did – just do the wheel.

17 JESSE: Just do a straight wheel.

18 JOHN: Yeah, just do the st – yeah.

19 JESSE: And if they don't – if they don't pull that, that's fine, you know?

20 JOHN: Yeah, that's fine. Just do the wheel.

21 JESSE: Yeah.

22 JOHN: 'Cause – 'cause they'll flow it and then that's not a, um, you know, since you didn't

23 adjust load, it's not going to hurt you on the ancillary services.

24 JESSE: Yeah, exactly.

25 JOHN: So that's what y – we do. So –

26 JESSE: It was it – it was ugly. We – I mean, we were 30 megawatts short for two hours.

27 JOHN: Oh, really?

28 JESSE: And zero for the last hour.

1 JOHN: So, did you have to, ah, tell 'em that?

2 JESSE: Yeah. I did.

3 JOHN: Were they cool with it or were they pissed?

4 JESSE: Ah, this guy, Joe, down – who was working down there –

5 JOHN: Oh, at Mead. Yeah, he gets really red.

6 JESSE: He wasn't that – he was all right. Um, amazingly enough, but I – he was sort of just

7 neutral more than anything else.

8 JOHN: Uh huh.

9 JESSE: And it was sort of like, yeah, well, *[fake laugh]* screw you guys.

10 JOHN: Yeah.

11 JESSE: Um –

12 JOHN: That does suck. So, I guess if we expect, ah –

13 JESSE: If we expect –

14 JOHN: -- sta -- any kind of stage –

15 JESSE: Exactly. And I did, comin' in today, too. I should have – I should have ah, thought

16 about that. I knew that it was going to be hot and then after the last couple days.

17 JOHN: So the Stage One, it went into Stage One and non-firms got whacked, right?

18 JESSE: Yeah. I thought it was Stage Two, but – you know?

19 JOHN: That tells us something.

20 JESSE: It was Stage Two shortly after that. You know it did hit Stage Two, right?

21 JOHN: Yeah.

22 JESSE: OK.

23 JOHN: I suspected.

24 JESSE: Yeah. And they sent a neat little, ah, side note – they sent a neat little message out

25 about the, ah, error in their work space of values they've publ – been publishing the last

26 couple days.

27 JOHN: Uh huh.

28 JESSE: I, ah – I copied it and sent it to you and Pete and Heather.

1 JOHN: OK.

2 JESSE: Um --

3 JOHN: About the finals that not -- weren't comin' out?

4 JESSE: Yeah, and ah, I mean I was asking them earlier and talking to Pete and the guys at
5 the ISO and they were talking to their IT people and -- and I think this is as close as the
6 responses were -- as I got anyway.

7 JOHN: Yeah. OK.

8 JESSE: But, ah --

9 JOHN: How's ah -- is the -- are the -- your re -- relief crew? Did they show up?

10 JESSE: Not yet.

11 JOHN: OK.

12 JESSE: They'll be here [*inaudible*]

13 JOHN: Have they been runnin' -- ?

14 JESSE: No, I mean, it's been fine. I don't know what's goin' on today?

15 JOHN: OK. Cool.

16 JESSE: Maybe they're both out havin' a beer before [*laughing*] -- no.

17 JOHN: Hope not.

18 JESSE: Yeah, me too. No they won't be. Um --

19 [REDACTED]

20 JOHN: I hear you. Now you're tradin' power.

21 JESSE: That's right.

22 JOHN: Cool.

23 [REDACTED]

24 JOHN: Well, cool. I was just checkin' in to see how it was going. Is it solid 250s or what?

25 JESSE: Yeah.

26 JOHN: That's what I figured.

27 JESSE: It's been since, ah, what's that -- 230s for eleven. 250s since.

28 JOHN: Hm. So, ah, this weekend -- are you working tomorrow?

1 JESSE: So, I'm working tomorrow night and Sunday night too.

2 JOHN: OK.

3 JESSE: Hopefully I'll be cleaning whatever up – making sure it's golden.

4 JOHN: Yeah, cool. So do you know who's working tomorrow? I think Bill's working

5 Sunday afternoon.

6 JESSE: Stan is.

7 JOHN: Stan?

8 JESSE: Stan and Monica are in tomorrow.

9 JOHN: OK.

10 JESSE: And I think tomorrow might be somewhat of a repeat of today.

11 JOHN: Yeah.

12 JESSE: It's just supposed to get hotter.

13 JOHN: Yeah, [*inaudible*] rockin'

14 JESSE: Yup, it's going to get hotter.

15 JOHN: How's the ah, spreadsheet working out? The settlements – or – or the services

16 spreadsheet?

17 JESSE: Ah, it's going to be really crap today, 'cause I can't get into ADS.

18 JOHN: Oh, really?

19 JESSE: [*inaudible*]

20 JOHN: 'Cause of your login, or what?

21 JESSE: No, it's the system's down.

22 JOHN: Their system is down?

23 JESSE: Their ADS database is down.

24 JOHN: OK. Does Heather know that?

25 JESSE: Heather's not here, but –

26 JOHN: Oh, OK.

27 JESSE: Um, I – I mean I talked to – I got transferred to their help desk and ah, that's what

28 they said.

1 JOHN: OK.

2 JESSE: And they said, oh, yeah. You just keep tryin' every five minutes.

3 JOHN: No thanks.

4 JESSE: Yeah [*laughs*] It's been like three hours, I think.

5 JOHN: Yeah.

6 JESSE: So, they've been calling me on the Harbor Co-gen spin and [*break in recording*] all —
7 everything else.

8 JOHN: Good, good, good. Oh, are those guys still just uninstructed when they're not called,
9 or what?

10 JESSE: Who — which ones?

11 JOHN: Any of 'em.

12 JESSE: Ah, Tasco's the only one.

13 JOHN: And they stay on all the time, right?

14 JESSE: Tasco — I don't know. Yeah, I mean —

15 JOHN: We think that they're stayin' on all the time because we get the megawatts and we
16 can see where —

17 JESSE: They're on all the time, but I don't know — I don't know —

18 JOHN: Arco, I think's on all the time.

19 JESSE: Arco's on, ah, they're fine. WillAbrator's on. Those guys don't — just don't vary,
20 really. Um, it's Harbor — I've been keeping them, ah, within their ten percent, ah, fluctuation
21 that they can do. And Tasco, as far as I know we — we can — when we shut them down it's
22 for three hours, so I don't know what we can do but run 'em, right?

23 JOHN: OK.

24 JESSE: Ah, I — we need to talk about that and — and if — if that's correct, because if we're
25 going to be do — doing this supp stuff, then we probably need to figure out how accurate
26 we're going to be.

27 JOHN: Yeah, because I've already put a note out and I'm going to put another note out
28 sayin' I'm not responsible for anything related to them, you know, running uninstructed.

1 Well, I'll let you go, man, I know you're busy.

2 JESSE: OK.

3 JOHN: So, ah, good luck and I hope you get out of there and get some sleep.

4 JESSE: I will.

5 JOHN: All right, man.

6 JESSE: Bye.

7 JOHN: Talk to you later.

8 =====

9 SUZANNE: [*inaudible*], I'm still here trying to check out with Bonneville and a bunch of
10 schedules that you – or some schedules you guys were in that were goin' to WAPA.

11 PERSON 2: OK.

12 SUZANNE: Um, I'm havin' trouble checkin' out with WAPA is the problem and I have a
13 couple schedules I wanted to check on. Who can –

14 PERSON 2: Um, for tomorrow?

15 SUZANNE: Um, for Monday.

16 PERSON 2: For Monday, I'm sorry. OK, ah, I let ah – I'll you talk to Jesse.

17 JESSE: This is Jesse. I'll help you out.

18 SUZANNE: Hey Jesse, Suzanne at Puget.

19 JESSE: Hey, this is going to be fun stuff.

20 SUZANNE: Oh, it'll just be a few minutes. I just have a question. Um, you're in a couple
21 schedules that are going to WAPA

22 JESSE: Uh huh.

23 SUZANNE: I think, on Monday, but I'm having a little trouble checkin' out with WAPA,
24 so can I read a couple to you and you could fin – I don't have any tags.

25 JESSE: OK, then I won't open that database.

26 SUZANNE: What can I – what do I need to tell you?

27 JESSE: Ah, you need to tell me –

28 SUZANNE: -- who's next to you?

1 JESSE: Yup.

2 SUZANNE: Ah, one of them is Duke. And this is he – this is a heavy load schedule.

3 JESSE: Duke. *[pause]* There we go. Heavy load. OK, what's the ah –

4 SUZANNE: So you do have a Duke?

5 JESSE: I have a couple Dukes. I got – but what's your, ah – what's the path.

6 SUZANNE: Oh, it's um, Puget generating and then it's PGET, Merrill, Avista, PS Co,

7 Duke, Enron, WAPA. You don't have that one?

8 JESSE: I don't have anything where we are next to Duke where you're generating. In this

9 spreadsheet, he-he – this doesn't mean everything.

10 SUZANNE: You don't? So it might be this – this might – the one schedule I just read you

11 first may be the one that I –

12 JESSE: *[inaudible]* I don't have that.

13 SUZANNE: You don't. OK, do you have, um –

14 JESSE: Let's see if I have anything –

15 SUZANNE: Do you have one with Sempra that I'm ah, generating?

16 JESSE: OK. Who – is Duke, ah – what *[inaudible]*

17 SUZANNE: Duke's not involved in that. Sempra's next to you.

18 JESSE: OK

19 *[end of file]*
