

1 1-20001210-11443751-11471930 (2:41)

2 JESSE: Enron, this is Jesse.

3 SEAN: Hi, Jesse. This is Sean.

4 JESSE: Hey.

5 SEAN: How's it goin'?

6 JESSE: Ah, goin'. [*chuckles*]

7 SEAN: Goin'?

8 JESSE: It's goin'?

9 SEAN: Are we gettin' tight out of Nob?

10 JESSE: Yeah, 100 megs an hour.

11 SEAN: Are we really?

12 JESSE: Yeah.

13 SEAN: Oh.

14 JESSE: Pretty [*inaudible*]

15 SEAN: Oh, is that -- ? What's that?

16 JESSE: Pretty ugly.

17 SEAN: What are we payin' ah, to cover it?

18 JESSE: 700.

19 SEAN: 700?

20 JESSE: Yeah.

21 SEAN: OK.

22 JESSE: [*inaudible*]

23 SEAN: How -- what's it lookin' like goin' into the -- into the night? Is it going to get pretty
24 dicey?

25 JESSE: It could get tight. I don't know, I mean, there's still -- there's still plenty of energy
26 out there.

27 SEAN: Yeah. It's not as cold.

28 JESSE: Yeah, it's not really what it supposed to be.

29 SEAN: Right.

1 JESSE: Um, you know it's actually warmer than it w – than it has been.

2 SEAN: Yeah. It's – yeah, I was I actually surprised. I went out for a run today and it's not,

3 ah – I was expecting it to be pretty cold and it's not very cold.

4 JESSE: Yeah, not at all.

5 SEAN: So we're bringing out the total of one and so they're cuttin' the crap out of it then,

6 'cause we're only bringing up 125 and they're cuttin' it to 100, huh?

7 JESSE: Yeah.

8 SEAN: Wow. OK.

9 JESSE: They've been doin' that for a bunch of hours.

10 SEAN: OK. So, is that – is it because the line's out, or what's the deal?

11 JESSE: Um, the – the derate's supposed to lift, right?

12 SEAN: It's supposed to lift?

13 JESSE: Yeah, I mean they said it was, but the – and ah, last night, or yesterday, or

14 something, but it's still happening, so –

15 SEAN: Yeah. OK.

16 JESSE: Um –

17 SEAN: But there's – who you buyin' from?

18 JESSE: We're buying from Puget and Water Power.

19 SEAN: OK.

20 JESSE: We were buyin' from Puget but we had to get some – they were gettin' a little

21 shorter, but Water Power's got extra so –

22 SEAN: Yeah, OK.

23 JESSE: *[inaudible]*

24 SEAN: OK, well, just do the best you can.

25 JESSE: Yeah, and I heard that, ah, *[chuckles]* up to two grand or something like that, is that –

26 ?

27 SEAN: Yeah. Yeah, that was the prize. That's where Sunday and Monday traded with 2000

28 dollars. Monday –

29 JESSE: God *[inaudible]*

1 SEAN: -- on peak traded -- what?
2 JESSE: That's crazy!
3 SEAN: Monday on peak traded 5000.
4 JESSE: Did it really?
5 SEAN: Yeah, the um, the thing is I'm not exporting any -- basically we're exporting that
6 amount all day today and first six, last two on Monday.
7 JESSE: Uh huh..
8 SEAN: So, I mean, it's going to be tight tomorrow in the morning, but I'm not exporting
9 any on peak tomorrow.
10 JESSE: On peak. Uh huh.
11 SEAN: Yeah, we got zero comin' out. So, if we can just kind of weather the storm through --
12 JESSE: Right and we tried to -- we're trying to export from, ah, Malin.
13 SEAN: Co -- yeah.
14 JESSE: At Cob, yeah.
15 SEAN: Right.
16 JESSE: And every hour we're settin' congestion at 250 and they're not givin' us anything.
17 SEAN: Oh, OK.
18 JESSE: So, but we're --
19 SEAN: OK.
20 JESSE: --we're tryin' that one.
21 SEAN: OK. All right. Well, just ah -- I'm going to be actually in in probably about a half
22 hour, so--
23 JESSE: All right.
24 SEAN: OK.
25 JESSE: See you then.
26 SEAN: All right, thanks.
27 JESSE: Bye.
28 SEAN: Bye.
