

1 **62-20001214-6331467-6352779 (2:13)**
2 TOM: This is Tom.
3 BILL: Hey Tom, Bill Tierney at Saguaro Power.
4 TOM: Hey Bill, how are you doing?
5 BILL: Good. Hey, I talked to Les Rawson yesterday –
6 TOM: Uh huh.
7 BILL: And, uh, he told me to get with you guys, I guess in the morning, about doing a
8 bilateral –
9 TOM: OK
10 BILL: -- megawatts, I think 250 uh, for, uh, the peak and 200 for, uh, the soft period.
11 TOM: OK, so it was 250 for the peak and 200 for the light load?
12 BILL: Yeah. Uh huh.
13 TOM: And that was –
14 BILL: One of them –
15 TOM: -- that was delivered at Mead, right sir?
16 BILL: Yeah, at Mead and you guys make the, whatever arrangements.
17 TOM: Sure.
18 BILL: You'll -- you'll make the transportation arrangements to Mead as well, right?
19 TOM: Uh, you just -- where is this -- where is stuff delayed? It's just from the bus? I
20 mean from Saguaro?
21 BILL: We're comin' out of Saguaro, yeah. We'd typically pay about \$4.10 to move a
22 megawatt, uh –
23 TOM: Yeah, you know, he -- he didn't really bring that up to me, but if -- if that's what
24 you talked to him about, I'm sure he can, um, you know can figure that portion of it out.
25 BILL: OK, um –
26 TOM: Um, so it's at the Mead 230?
27 BILL: Yeah.
28 TOM: OK. Um, and it's 25 megs?

1 BILL: No, no, it's 10.
2 TOM: It's 10 megs, OK.
3 BILL: 10 megs, yeah.
4 TOM: 10 megs flat. All right, 202.50 for, uh, Friday and Saturday.
5 BILL: Yes.
6 TOM: All righty. We will --
7 BILL: OK.
8 TOM: -- we will drop in like that, sir, for, the, uh, the two day piece.
9 BILL: OK, You have any idea on who that -- uh, is there a way you, you can cycle back
10 with me, you know later in the day when, uh, I mean you figure out who picked that up?
11 TOM: Yeah, we will, uh, yeah, our people are gonna have to tag, you know, come to the
12 tag --
13 BILL: Yeah.
14 TOM: -- of it and everything at that point, they'll uh --
15 BILL: Yeah.
16 TOM: -- they'll want to get a hold of you guys.
17 BILL: OK.
18 TOM: OK, Bill?
19 BILL: Uh -- yeah, Les has got my numbers and, uh, and, uh, he usually sends that
20 generation schedule that he sends, that he probably -- he probably -- he pulls it off, I'm
21 sure, of the PX or the ISO, I'm not sure what you guys would do on a bilateral but, uh --
22 TOM: Yeah, um, yeah, well we'll just, uh, I mean we just take it into our book and, you
23 know, uh, well, we'll just -- they'll just match it up with an existing transaction we have,
24 so --
25 BILL: OK.
26 TOM: -- you guys will kind of be out of the loop, I mean out of the, uh, going to the PX
27 with it, at least.
28 BILL: Yeah, good, yeah.

- 1 TOM: OK, sir?
- 2 BILL: OK, Tom, thanks.
- 3 TOM: All right, thank you. Bye.
- 4 BILL: Stay in touch.
